MERN ASSIGNMENT

Client Contact - Testing and Feedback

23 July 2019 / Matthew Leacy

AGENDA

- Present client with live product
- Present progress report
- Present list of known issues

NOTES

- Client requests the name of the public bot files to change back to CCTS.

- Client requests that more logs be created by bot actions and that they contain more detailed information.

- Client requests that we create a function capable of retroactively applying changes to the algorithm.

- Otherwise the Client was happy with the product.

ACTION ITEMS

1. Make logs more detailed and cause their creation more consistently.
2. Change the name of the public bot files.
3. Investigate the possibility of creating the clients requested function.
